Logo Design
Infographics
Visual Storytelling
Responsive Web Design

Projects

Why Space — Warehouse Space-Sharing Platform

A warehouse space-sharing platform that connects businesses needing storage space with warehouse owners and logistics managers who have unused commercial space. The platform allows warehouse owners to list their available space with details such as location, capacity, pricing, availability, and facilities, while businesses can search, compare, and request warehouse spaces based on their storage requirements. The goal of Why Space is to make finding and renting warehouse space faster, simpler, and more flexible, while helping warehouse owners generate value from unused capacity.
